Use case "Add media to cart"

Basic flow		
No	Doer	Action
1	Customer	selects a media, enter number of media and request to add to cart
2	Software	checks if the media is available
3	Software	adds the media to cart
4	Software	updates the number of media in the cart

Alternative flow			
Location	Condition	Action	Resume location
Step 2 of Basic flow	Software	notifies there are not enough media to add	the use case ends
